Experience

VowelWeb Pvt. Ltd.   **Jan 2025 – May 2025**
MERN Stack Developer   *Nagpur, MH*

- Developed and launched a Shopify public app used by **50+ merchants**, increasing conversion rates through intelligent upsell and cross-sell logic.
- Built **10+ RESTful** endpoints using Node.js and Express.js, enabling seamless communication between Shopify and backend services.
- Utilized **GraphQL Admin API** for efficient data queries, reducing API response time by **30%**.
- Implemented responsive UI components with React.js and Tailwind CSS, improving user engagement by 40%.

Eliora Technologies Pvt. Ltd.   **Dec 2023 – Nov 2024**
Junior Software Developer   *Nagpur, MH*

- Contributed to **3+ full-stack projects**, collaborating in an Agile team of 5 developers to build scalable web applications.
- Developed **30+ reusable** React components, optimizing performance and reducing development time by 20%.
- Implemented role-based access control and **JWT authentication** for secure multi-user login systems.
- Built and managed **MongoDB-backed APIs** to handle thousands of records for a real estate management platform.
- Participated in code reviews, Git workflows, and regular sprint planning meetings, maintaining high code quality and delivery efficiency.

Projects

Chatty ↗ | MERN Full Stack   **Live Link**

- Built a **real-time chat application** using **Socket.io**, supporting text and image messages.
- Added **dynamic theme switching** for a personalized user experience.
- Enabled profile picture updates and real-time online user visibility to enhance engagement.

Real Estate Platform ↗ | MERN Full Stack   **Live Link**

- Built a role-based web application using the **MERN stack for Admins**, Agents, and Partners.
- Integrated **Redux Toolkit** for managing complex states and improving performance.
- Delivered a responsive, mobile-friendly UI and secured backend with **JWT-based** authentication.
- Created scalable APIs using Express.js and MongoDB to handle large real estate datasets.

Technical Skills

Frontend: HTML5, CSS3, React.js, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, REST APIs, GraphQL, JWT Authentication , Socket.io
Databases: MongoDB, Firebase
Languages: C++, JavaScript, Python
Tools: VS Code, Git & Github, JIRA, Bitbucket, Render, Netlify, Vercel , Postman , **AWS**

Education

Anjuman College of Engineering and Technology   **July 2020 – May 2024**
*B.Tech - Computer Science and Engineering - **CGPA** - **7.9***   *Nagpur, MH*

Coursework and Skills

- MERN Stack Development
- API Development
- Advanced JavaScript
- Data Structure and Algorithms
- Object-Oriented Programming (OOP) Concepts
- Software Engineering

Achievements

- Developed a Shopify public app used by **50+ stores**, increasing client conversion rates through upsell and cross-sell.
- Reduced development time by 30% by building reusable React components and API across multiple MERN projects.
- Delivered a real estate web platform 2 weeks ahead of schedule, with zero post-deployment bugs.
